

River Rappers 2022 Speaking for the Planet

Only one Earth, how much is it worth?
that's all these people care about always trying to chase that clout
Fudging makes me wanna shout
will they listen I doubt they're too busy pissin' their money away,
heading off to other planets while we stay,
leave behind your debts,
forcing us to pay
flying in a private jet you got lots of money
isn't that funny

honey is the money of the bees
pushing your agenda inequality
honey is the money of the bees
pushing your agenda inequality

deep sea drilling these companies aren't willing
to let our children live in a healthy planet earth
overpopulation caused by all the birth
so wealthy get a standing ovation
meanwhile you're causing deforestation

T.M.I that's too much information
from the media they're numbing our brains
we need to do something before it gets too late

every time you get in your car just take a moment think is it that far
or can I just bike or walk or bus
yeah there's not much else to discuss
every time you get in your car just take a moment think is it that far
or can I just bike or walk or bus
yeah there's not much else to discuss

honey is the money of the bees
pushing your agenda inequality
honey is the money of the bees
pushing your agenda inequality
honey is the money of the bees
pushing your agenda inequality
honey is the money or the bees
pushing your agenda inequality
